## ADVISORY NOTICE

MIKROLATEST Beta-LACTAMtest  
Catalog No. MLT00034

Dear customer,

We would like to inform you about a change in the instructions for the  $\beta$ -LACTAM test. Based on EUCAST recommendations, the test is no longer suitable for the detection of *Haemophilus* as stated in the original instructions.

The  $\beta$ -LACTAM test is intended for the rapid acidimetric detection of bacterial  $\beta$ -lactamase activity. This acidimetric method is recommended for use in testing  $\beta$ -lactamase production by *Staphylococcus* species and *Neisseria*.

If you have any questions, please do not hesitate to contact us.

Best regards
