

ADVISORY NOTICE

34_2023_change of label design

Dear customer,

We would like to inform you about the change of label design of EC cartridges, EC biosensor and EC urine diluent, which is valid from February 22nd.

EC biosensor label now contains a barcode which can be loaded in the software when inserting a new biosensor (instead of manual loading of the biosensor LOT). The biosensor label also includes a notice to keep the biosensor package while using the biosensor because there is traceable information included (Warranty request void without pouch).

The package of EC cartridge includes EC biosensors which is now mentioned on the secondary packaging of the cartridge together with LOT and expiry of EC biosensors.

Additional changes: EC urine diluent label contains a barcode. The colour design of all mentioned labels has been changed to white.

This change applies to product mentioned in the table below.

REG00056	EC cartridge M
REG00057	EC cartridge L
REG00058	EC cartridge S
REG00062	EC cartridge M plus iCa
REG00061	EC cartridge S plus iCa
REG00063	EC cartridge L plus iCa
REG00065	EC cartridge XS
REG00066	EC cartridge XS plus iCa
REG00059	EC urine diluent
REG00064	EC Biosensor

In case you have any additional questions, please do not hesitate to contact us.

Best regards,

Nemcova'
