

**ADVISORY NOTICE**

20\_2024\_ERBA LYTE series

Dear customer,

We hereby inform you, that new system of ordering of analyser ERBA LYTE has been implemented since 1.7.2024. The new system consists in separate ordering of analyser and reagents. The customer must therefore place order for analyser and for reagent separately. Reagents will not be automatically added to the analyser order. To order reagents, we recommend using catalogue number REG xxx.

The details of included and non-included items are described in User manual UM20/24/F on the page 12-19.

Full version of new UM can be found on [Erba Knowledge Base](#).
